

John Stephen Tenywa (JS Tenywa)

He is an Associate Professor at the Department of Agricultural Production, College of Agricultural and Environmental Sciences Makerere University. He joined Makerere University as a Teaching Assistant in 1982 after attaining Bachelor's degree (BSc. Agric) in 1981. He holds a PhD in agronomy from the Ohio State University in USA, specialized in soil fertility and plant nutrition. He is also the Editor-in-Chief of the African Crop Science Journal of the African Crop Science Society.

He has supervised and mentored several M.Sc. and Doctoral students. He has widely published in regional and international journals. He serves as a board member to numerous journals. His main research areas include soil fertility management, plant nutrition, crop productions systems and ecology. He is a scientific writing trainer for project proposals and journal publishing, and has led training team in various institutions (including universities) in eastern, central and southern Africa.

In addition to attracting research grants, he has offered scholarship to students, taught, mentored and supervised graduate students many of whom are now serving the university as staff, government ministries and research institutions and beyond the borders.
