

Philip Nyeko

Professor and Head of the Department of Forestry, Biodiversity and Tourism. He holds a PhD from the University of Wales, (UK), MSc. Pest Management from Imperial College of Science, Technology and Medicine, University of London (UK) and BSc. Forestry (Hons) from Makerere University. He has over 20 years of teaching, research, and outreach experience. He teaches Introductory Entomology, Applied Forest Entomology, and Pest and Disease Management in Forests and Forest Products. His research has mainly focused on forest entomology and pathology, forest restoration ecology, agro forestry and edible insects. He was a Guest Lecturer at ISAE, Busogo, Rwanda from 2005 to 2007 and a SUFUNAMA Scholar in Bangor University (UK) in 2008. Prof. Nyeko has won several competitive research grants, presented his research findings in a number of national and international conferences, and published over 60 refereed scientific articles. He is a member of the CAES Appointments and Promotion Committee, Hospitality and Tourism Skills Sector Council, and Technical Committee of Uganda Timber Growers Association (UTGA). He served as a member of Makerere University Senate, Uganda Gatsby Trust Board, and UTGA Board. He is Fellow of the African Academy of Sciences.
