

Fredrick Tumwine

Associate Professor of Demography and Population Geography. His research and academic career started in Geomorphology and Physical Geography but later developed interest in Demography and Population Geography and specialized in nuptiality. He has contributed greatly to poverty reduction in Kamwenge District through collaboration with Kyabwanswa Rural Integrated Farming Systems (KRIFS) - a Community Based Organization (CBO) and Kamwenge Bee Keepers Cooperative Society (KABECOS) a Non Governmental Organization (NGO). He is the President of Uganda Geographical Association (UGA) and member of several international and local organisations. He has published over 20 papers and received 6 awards. He has attended over 10 workshops and conferences.
