12:30 pm	13:30 pm	<b>Lunch Break</b>	Mak Guest House
13:30 pm	15:30 pm	<b>Environmental Evaluation</b>	Facilitator
15:30 pm	17:30 pm	<b>Environmental Accounting</b>	Facilitator
17:30 pm	17:35 pm	<b>Closing Remarks and Departure</b>	Director

## **(EFD-Mak Centre) SEMINAR FRIDAY 27<sup>TH</sup> SEPTEMBER, 2019**

EfD-Mak Center is one of the new centres under Environment for Development Initiative (EfD) established in Hanoi, Vietnam in 2018. The centre started its full operations in the financial year 2019/2020 with support from the Swedish International Development Cooperation Agency (Sida). EfD-Mak is managed by two colleges - College of Business and Management Sciences (CoBAMS) and the College of Agricultural and Environmental Sciences (CAES).

EfD-Mak Centre is organizing a one-day training in Environmental Valuation, Evaluation and Accounting on 27<sup>th</sup> September, 2019 at CoBAMS conference room. The training targets experts from public and private sector including: government ministries, agencies, researchers, academic staff and students.

### **Objectives of the training**

The purpose of the seminar is to provide both theoretical and empirical basics of environmental analysis. Specifically, the seminar will cover basic issues in environmental economics, valuation of environmental goods, evaluation of environmental goods and environmental accounting. Most of the environmental goods are non-market goods and thus do not have standard prices and thus demand curves.

### **Expected outcome**

At the end of this exercise, we expect the participants to be well grounded in areas of valuation, evaluation, accounting and analysis of environmental goods. Emphasis will be mainly given to the modelling approaches and estimation techniques.

### **Training program outline**

#### **1.0 Introduction (2 hours)**

- 1.1 Basic Issues in Environmental Economics
- 1.2 Environment, Economic Growth, poverty, and population linkages
- 1.3 Optimal Exploitation and Management of Natural Resources
- 1.5 Economics of Biodiversity and Ecosystems
- 1.6 Pollution Theory
- 1.7 Climate change

### 2.0 Environmental Valuation (2 hours)

- 2.1 Welfare Foundation of Environmental Valuation
- 2.2 Methods for Measuring Values
- 2.3 Theoretical Basis for the valuation approaches
- 2.4 Modeling Approaches
- 2.5 Estimation techniques

### 3.0 Environmental Evaluation (2 hours)

- 3.1 Cost benefit analysis
- 3.2 Discounting and Environmental Concerns
- 3.3 Other alternative

### 4.0 Environmental Accounting (2 hours)

- 4.1 UN System of National Accounts (SNA)
- 4.2 System of Environmental-Economic Accounts
- 4.3 Wealth Accounting (World Bank)
