| **Photograph** |  |
| **Full name including title** | Dr. Tonny Obua |
| **Staff ORCID ID** | |
| **Staff ID Number** | 0231.15.665 |
| **Unit under DAP** | Crop Science |
| **Contact Telephone number** | +256 (0) 779 615960 |
| **Email address** | tonny.obua@mak.ac.ug<br>obuatonny@gmail.com |
| **Social media accounts** | @TonnyObua2 |
| **Address** | College of Agricultural and Environmental Sciences,<br>School of Agricultural Sciences,<br>Department of Agricultural Production,<br>Makerere University Center for Soybean Improvement and Development |
| **About/Introductory statement** | I am passionate about Plant Breeding, genetics, and Seed systems; especially for legume crops. I love working with smallholder farmers. |
| **Qualifications** | PhD in Agriculture, Makerere University Kampala, 2022<br><br>Master of Science in Crop Science, Makerere University Kampala, 2014<br><br>Bachelor of Science in Agriculture, Makerere University Kampala, 2011<br><br>Member, National Variety Release Committee (Uganda) |

| | |
|---|---|
| | Member, National Plant Variety Protection Committee (Uganda) |
| **Biography** | I teach courses related to plant breeding and genetics at the university; including both conventional and modern plant breeding techniques.<br>I am part of the research team that has so far developed six improved soybean varieties that are being grown by 94% of farmers in Uganda.<br><br>I have equally passionate about improving the yields of farmers especially those involved in soybean production. One of my key aspirations is to disseminate the improved soybean varieties we develop from Makerere University to reach all the smallholder farmers in Uganda and across the East African region.<br><br>I am equally keen on community transformation through the establishment of local seed businesses (LSBs)/community seed banks that enable our soybean varieties to reach smallholder farmers in the shortest time. |
| **Other Activities** | - |
| **Teaching** | 1. Principles of Plant Breeding<br>2. Plant Breeding Technologies<br>3. Plant Breeding Methods |
| **Research** | Soybean breeding with a focus on yield, nutritional traits (protein and oil content), short maturity period |
| **Research groups and Centres** | Soybean Africa Ltd<br>https://soybeanafrica.com |
| **Community based work** | I have supported several farmer groups to grow improved soybean varieties in Uganda; either as grain or seed. Some of these include; Bala Women and Youth (Kole), Alito Joint Multi-Purpose Cooperative (Kole), West Acholi Cooperative (Gulu), Dokolo Young Oil Seeds Cooperative (Dokolo), Kwera Young Oil Seeds Cooperative (Dokolo), Gang Dyang (Agago) |
| **Awards or special recognitions received** | - |
| **Publications** | Harun Murithi, Michelle L Pawlowski, Tizazu Degu, Deresse Hunde, Molla Malede, **Tonny Obua**, Hapson Mushoriwa, Daniel Leigh Coyne, Phinehas Tukamuhabwa, and Glen L Hartman. 2021. Evaluation of Soybean Entries in the Pan-African Trials for Response to Coniothyrium glycines, the Cause of Red Leaf Blotch. *Plant Disease*. https://doi.org/10.1094/PDIS-05-21-1017-RE.<br><br>**Obua, T.,** Sserumaga, J.P., Awio, B., Nganga, F., Odong, T.L., Tukamuhabwa, P., Tusiime, G., Mukasa, S.B., Nabasirye, M. 2021. Multi-Environmental Evaluation of Protein Content and Yield Stability among Tropical Soybean Genotypes Using GGE Biplot Analysis. *Agronomy* 11 (7), 1265. https:// doi.org/10.3390/agronomy11071265.<br><br>Clever Mukuze, Phinehas Tukamuhabwa, Mcebisi Maphosa, Shorai Dari, **Tonny Obua**, Hellen Kongai and Patrick |
